Louisiana er et museum for moderne kunst med samlinger af dansk og international kunst fra det 20. århundrede. Det gamle hus, som er museets indgangspavillon, opførtes for godt 100 år siden af en adelsmand, som tre gange var gift og hvis hustruer alle bar navnet Louise. Heraf navnet Louisiana.

Louisiana is a museum of contemporary art with a collection of Danish and international art from the 20th century. The original house, which serves as an entrance, was built well over a hundred years ago by a nobleman who married three times. All three of his wives were called Louise, hence the name Louisiana.
